

About Us:

Safety Network Bangladesh is a nationally recognized, volunteer-driven platform that unites multi-stakeholder professionals, civil society actors, and community leaders to enhance safety, security, and emergency preparedness across Bangladesh.

Founded in response to the growing complexities of national and regional risks, from climate vulnerability and political unrest to transnational threats, Safety Network has evolved into an agile force for collective action. In 2024, the platform received global recognition from the **International NGO Safety and Security Association (INSSA)** for its life-saving contributions to verified information sharing, civic engagement, and professional networking during crises. At its core, the platform operates with a people-centric approach. We disseminate real-time alerts, conduct daily media monitoring, and combat misinformation to amplify public awareness. Our work is underpinned by a strong emphasis on community resilience, and alignment with the Sustainable Development Goals (SDGs). Operating as a national movement for safety consciousness, the platform empowers informed decision-making in volatile environments through its vibrant online presence and strategic field-based interventions.

Ultimately, our mission is to turn collective action into a safer tomorrow for all.

Safety Net BD: The Enterprise Model of Safety Network Bangladesh

To institutionalize and scale the operational, professional, and technical arms of the national safety movement, Safety Net BD was established as the enterprise wing of Safety Network Bangladesh.

It transforms grassroots safety visions into actionable services, consulting solutions, and capacity-building programs bridging the gap between community needs and institutional practices. We work across multiple service scopes, uniting professionals from diverse industries under one collaborative platform to foster cross-sector synergy. This inclusive model strengthens our ability to serve clients whose missions align with safety, resilience, and social transformation. Functioning as a Strategic Business Unit (SBU), Safety Net BD partners with national and international risk management consultants to deliver tailored, tech-enabled safety solutions that are both technically robust and socially responsive. Our dedicated, mission-driven team is the core of our operations, amplified by a vast network of subject matter experts, advisors, and consultants. The foundation of our integrated delivery model is a network of formalized MoUs and strategic partnerships, allowing us to blend corporate efficiency with genuine community-rooted results.

This allows us to design and deliver bespoke solutions based on each client's unique operational context and risk profile.

Service Portfolio: Our services support a wide range of clients including INGOs, development partners, corporates, and national agencies with a comprehensive suite of offerings, such as:

Media Monitoring & News Intelligence Services

Stay informed, stay ahead. Our Services help organizations track, analyze, and respond to relevant news across all media formats enabling smarter decisions and strategic communication.

What We Offer:

- **Media Tracking:** We deliver proactive intelligence by monitoring your brand's presence across all media channels (Print, Online, TV, and Social Media). Our experts collaboratively assess your needs to continuously adjust monitoring parameters, ensuring the insights you receive are anticipatory and contextually relevant.
- **Competitor & Issue Tracking:** Monitor competitor activities, industry developments, and coverage of key topics, including press releases, news features, and analytical reports.
- **Summaries & Translations:** Receive concise summaries and translations (Bangla-English) of complex or critical content to support strategic communication. Deliverable formats are adapted for different audiences ensuring that everyone gets the right level of insight.
- **Remote Access & Archives:** Access our daily and periodic reports remotely through our secure digital platform available from anywhere, anytime.
- **Data Analysis:** Get actionable insights from vast news data with expert-supported and AI-powered analytics. We provide sentiment analysis, trend mapping, and contextual forecasts to anticipate risks, shape narratives, and inform strategic decisions.
- **Real-time Alerts:** Our service provides instant, around-the-clock alerts tailored to your needs, enabling swift and decisive action in response to emerging risks empowering you to respond effectively to any risk issues.
- **Influencer Mapping:** Identify and analyze key individuals, organizations, and media outlets that influence public opinion on topics relevant to your brand or industry, allowing for more targeted communication.

Crisis Management & Quick Response

During critical incidents, our specialized teams provide immediate support and expert analysis. We facilitate timely decision-making and ensure a coordinated, effective response to minimize disruption and maximize safety.

What We Offer:

- **Emergency Assistance:** We have a well-established rapid response mechanism. By leveraging pre-arranged contracts and prior actor mapping, our on-call backup is swiftly activated to manage disruptions effectively.
- **Expert Analysis & Consultancy:** Receive strategic guidance and expert analysis in real-time, ensuring you can make timely, well-informed decisions when it matters most.
- **Seamless Collaboration:** Our experts ensure close coordination with your in-house security teams, guaranteeing a cohesive and unified response from the initial incident to its resolution.
- **Network of Safe Houses & Emergency Stoppages:** Access to a network of geo-mapped safe houses for emergency hibernation and emergency stoppage points along strategic highways for safe mobility.
- **Contingency Planning:** Development of comprehensive contingency plans addressing both individual and organizational aspects including occupational and contextual risks.

🏠 Training, Research & Capacity Building

We strengthen organizational resilience and foster a culture of preparedness through tailored education and continuous learning. Our programs empower individuals and teams with vital safety, security, and disaster preparedness skills.

What We Offer:

- **Training Sessions:** Conduct regular training programs focused on essential life-saving skills such as fire safety, first aid, and crisis response. These are enriched with our innovative **Safety Tree** concept, an infotainment-based tool designed to simplify safety learning and foster behavioral change, especially among youth and frontline workers.
- **Customized Training Programs:** We offer specialized, accredited training programs in various domains of safety and security risk management, including hostile environment awareness and disaster preparedness, meticulously tailored through a comprehensive Training Needs Assessment (TNA).
- **SRMP Certification:** We support career advancement by aiding in the achievement of various renowned international certifications and diplomas, as deemed appropriate for professional growth. This includes the opportunity for participants to become Security Risk Management Professionals (SRMP) through the International NGO Safety-Security Association (INSSA).
- **Infotainment-Based Education:** We develop and disseminate infotainment-based educational content, including cartoons and video games featuring our Safety Tree model, to simplify safety learning. We also support youth-led innovation labs and civic tech engagement to foster systemic change.

- **Behavioral M&E:** We assess safety behaviours, learning outcomes, and program impact using structured M&E tools. By integrating Neuro-Linguistic Programming (NLP) principles, we gain deeper behavioural insights to drive continuous improvement.

Risk Assessment & Scenario Planning

We help clients proactively identify, analyze, and mitigate potential threats before they escalate. Our services ensure you stay ahead of emerging risks through strategic foresight and detailed security mapping.

What We Offer:

- **Participatory Risk Assessments:** Systematically identify vulnerabilities and emerging threats through collaborative assessment tools and focused group discussions (FGD).
- **Security Mapping & Briefings:** Provide geo-mapped high-risk zones (e.g., Cox's Bazar) and comprehensive security briefings, specifically tailored for visitors, especially foreigners, to ensure their understanding of hostile contexts and crucial cultural considerations.
- **Travel Route Planning:** Develop and advise on evacuation, emergency management and alternate travel routes to enhance mobility safety.
- **Continuous Monitoring & Risk Mitigation:** We provide ongoing monitoring of socio-political dynamics, informing the development of detailed risk maps and effective avoidance and mitigation strategies, all guided by internationally recognized experts.
- **Vulnerability & Threat Identification:** Detailed analysis to identify vulnerabilities and emerging threats across all operational areas.

Digital Marketing & Brand Safety Solutions

As digital platforms become central to public discourse, we ensure your brand's reputation remains protected while amplifying your mission safely and effectively. We manage your online presence and build strategic influence.

What We Offer:

- **Social Media Monitoring & Sentiment Tracking:** Comprehensive monitoring of social media for mentions, sentiment, and emerging trends impacting your brand.
- **Digital Engagement Strategies:** Design and implement effective digital advocacy campaigns, including content development, digital promotion through audience boosting, and strategic outreach for cause-based initiatives.

- **Content Verification & Response:** Ensure safe, accurate storytelling through real-time content monitoring, rigorous fact-checking, and rapid response strategies to counter misinformation, thereby upholding brand integrity and trust.
- **IT-Enabled Safety Platforms:** Utilize tools like interactive threat dashboards, early warning alert systems (SMS, WhatsApp, Telegram), and web-based incident reporting.

Public Relations & Awareness Supports including Campaigns

We support organizations in planning, launching, and managing campaigns that drive awareness, build trust, and position them strongly in reputation among their respective audiences.

What We Offer:

- **Public Awareness Campaigns:** Design and manage impactful public campaigns on themes tailored to resonate across communities. Our services also bridge communication gaps between organizations and key state actors, ensuring alignment with national priorities and regulatory standards.
- **Strategic PR Advisory:** Provide expert guidance in stakeholder engagement, media strategy, and reputation risk management to support strategic visibility and pressing social impact themes.
- **CSR Planning & Implementation:** Support the development and execution of Corporate Social Responsibility (CSR) initiatives that align with your organization's mission, helping clients grow through socio-cultural, environmental, and community-based contributions for sustainable impact.
- **Event Guidance & Influence Building:** Help plan and guide your organizational events to meet industry standards and needs, leveraging renowned media coverages to enhance public image and establish your organization as an influential voice in the industry.
- **Government Liaison & Regulatory Consultancy:** Provide advisory as well execution support on engaging with government institutions, navigating policy frameworks, securing approvals, and aligning communication with regulatory norms.

End-to-End Safety & Security Management

Recognizing that not every organization possesses in-house capacity for robust safety and security management, we offer qualified personnel and strategic support as an outsourced advisory and embedded model.

What We Offer:

- **Flexible Personnel Deployment:** Provision of thoroughly vetted and highly qualified security personnel, deployed precisely based on your emergency and operational requirements, with all reports and deliverables submitted to designated project authorities.
- **Embedded Advisory Models:** For clients without in-house security expertise, we offer embedded advisory, including the secondment of expert safety consultants or dedicated Security Focal Persons (SFPs) directly within your operations.
- **Executive Protection Services:** Provision of highly professional event management and discreet executive protection details, ensuring the safety and security of key personnel during travel, events, or daily operations.
- **Integrated Risk & Intelligence Management:** Seamlessly managing comprehensive risk assessments, continuous socio-political monitoring, detailed security mapping, and strategic travel route planning as core components of your outsourced safety framework.
- **Collaboration with Public Institutions:** Facilitate effective collaboration with law enforcement and regulatory bodies to ensure operational compliance, public order, and smooth coordination during campaigns or emergency contexts.

Our Mission, Vision, Intervention and Services at a Glance

We, thus, deliver comprehensive safety, security, strategic communication, and digital solutions through an integrated service model. Our mission is simple yet powerful: Whether you're navigating crises or striving to elevate your public profile,

our expert-driven services are crafted to strengthen organizational resilience and expand your sphere of influence. We consider our work part of a broader social movement guided by the slogan that **"Safety Starts with YOU."** Through community engagement and our signature Safety Tree infographic model, we aim to spread awareness and cultivate a pro-active culture of preparedness. Our vision is therefore to achieve shared responsibility for safety and sustainability.

Safety Net BD for "A Safer Tomorrow"

Mission: To empower a collective movement for a safer, more resilient Bangladesh

Vision: Together, let's work to create a safer world.

Risk Assessment & Scenario Planning: Anticipate and mitigate threats through participatory risk assessments, detailed security mapping, and continuous socio-political monitoring.

Digital Marketing & Brand Safety: Strengthen your online influence with digital advocacy, brand protection, content verification, and IT-enabled alert platforms to combat misinformation.

Public Relations & Awareness Campaigns: Build public trust and shape narratives through strategic PR, multi-platform campaigns, and advocacy aligned with social impact and SDGs.

How We Work

"Information is Power" - this guiding principle underscores Safety Net BD's unwavering commitment to delivering accurate, timely, and actionable information that drives positive change. Our strength lies in a uniquely blended consultants and executive team, comprising some of the country's leading security practitioners, supported by a diverse group of professionals including journalists, legal experts, and risk analysts. This multidisciplinary expertise empowers us to offer a comprehensive audience engagement technique and context-specific range of safety, security, and risk communication services, tailored to the unique operational environments and needs of our clients as shown in diagram:

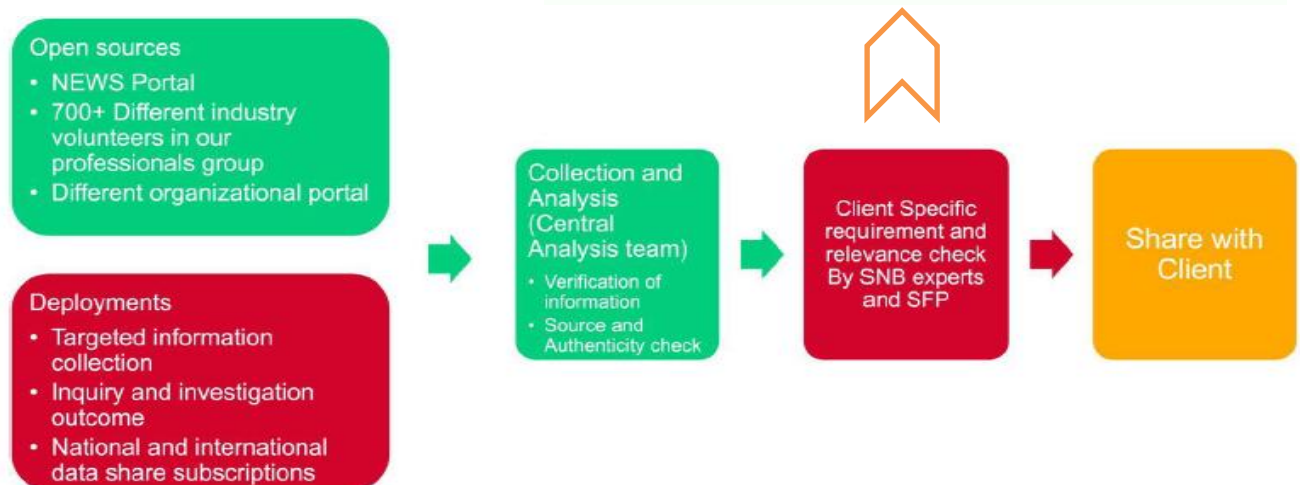

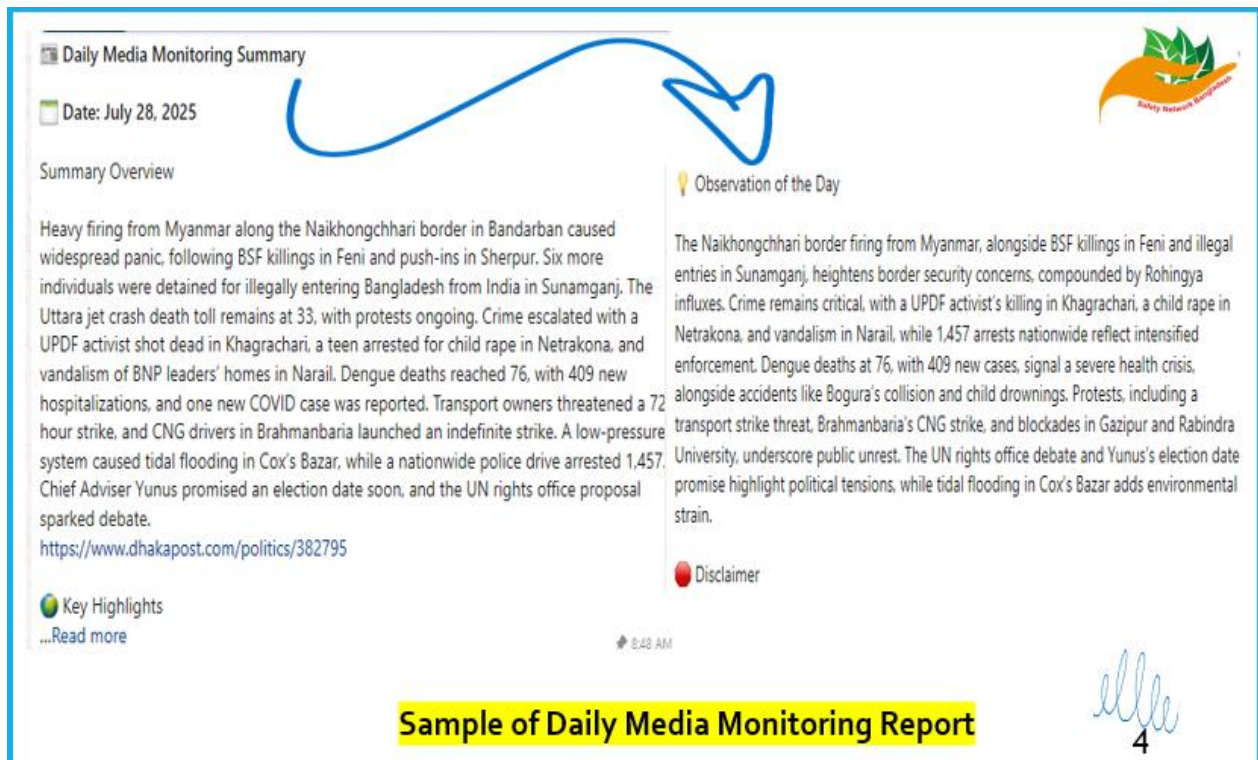

Figure: Data collection model for delivery of services to client.

Safety Net BD follows a multi-layered and comprehensive information management model comprising data collection, analysis, verification, and dissemination. We utilize our unique audience engagement techniques to generate community attention and establish a consistent, loyal reader base. Our content is meticulously crafted with the modern professional in mind, providing follow-up analysis and critical insights on news items to save valuable time. We ensure our readers are not only informed but also possess the key knowledge required for any professional or conscious citizen.

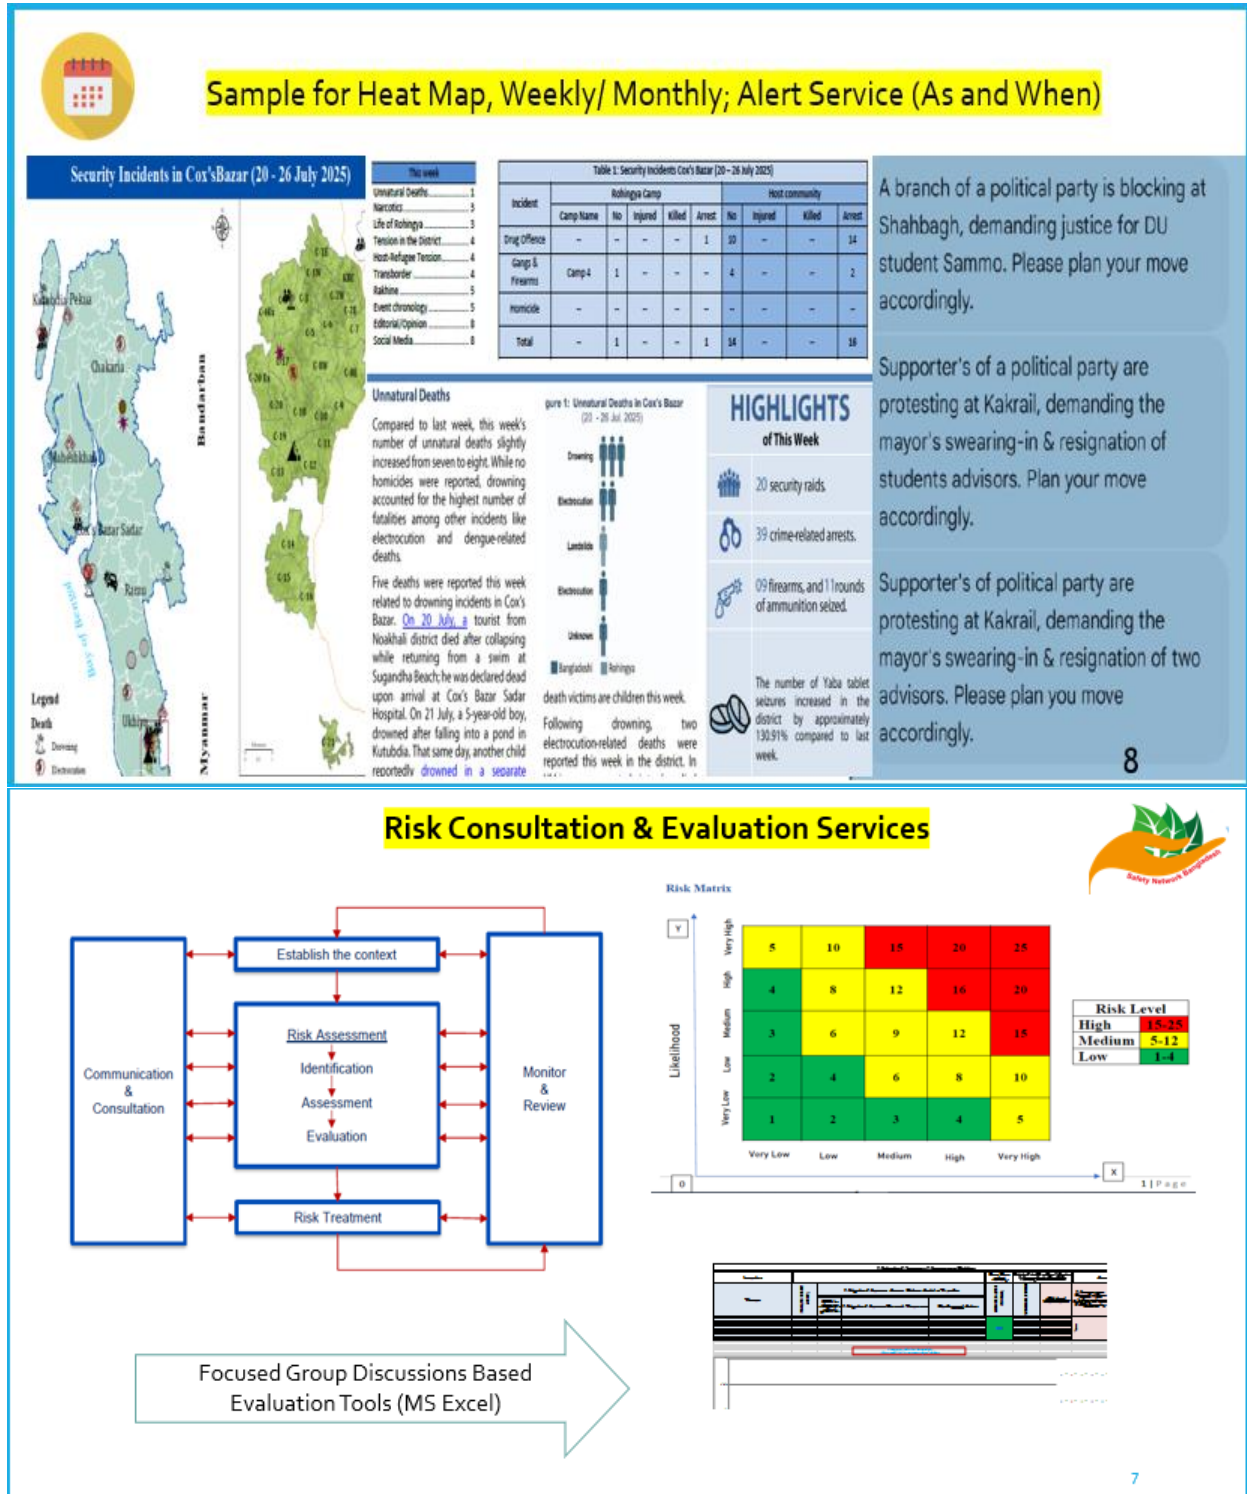

Our Strategic Approach to Information Integrity

We believe that the credibility of our intelligence is paramount. To ensure this, we strategically and actively engage with a wide range of agencies responsible for information integrity. This includes close collaboration with prominent media outlets, key law enforcement agencies, and leading verification/fact-checking platforms. This collaborative approach not only strengthens the accuracy of our content but also builds a foundation of trust, allowing us to confidently deliver reliable and timely intelligence to the community we serve.

Our comprehensive information management model is multi-layered, ensuring we capture a full picture from multiple sources. Our process leverages open-source intelligence from a variety of public platforms, combines this with real-time insights from our extensive nationwide volunteer network, and is further enriched by

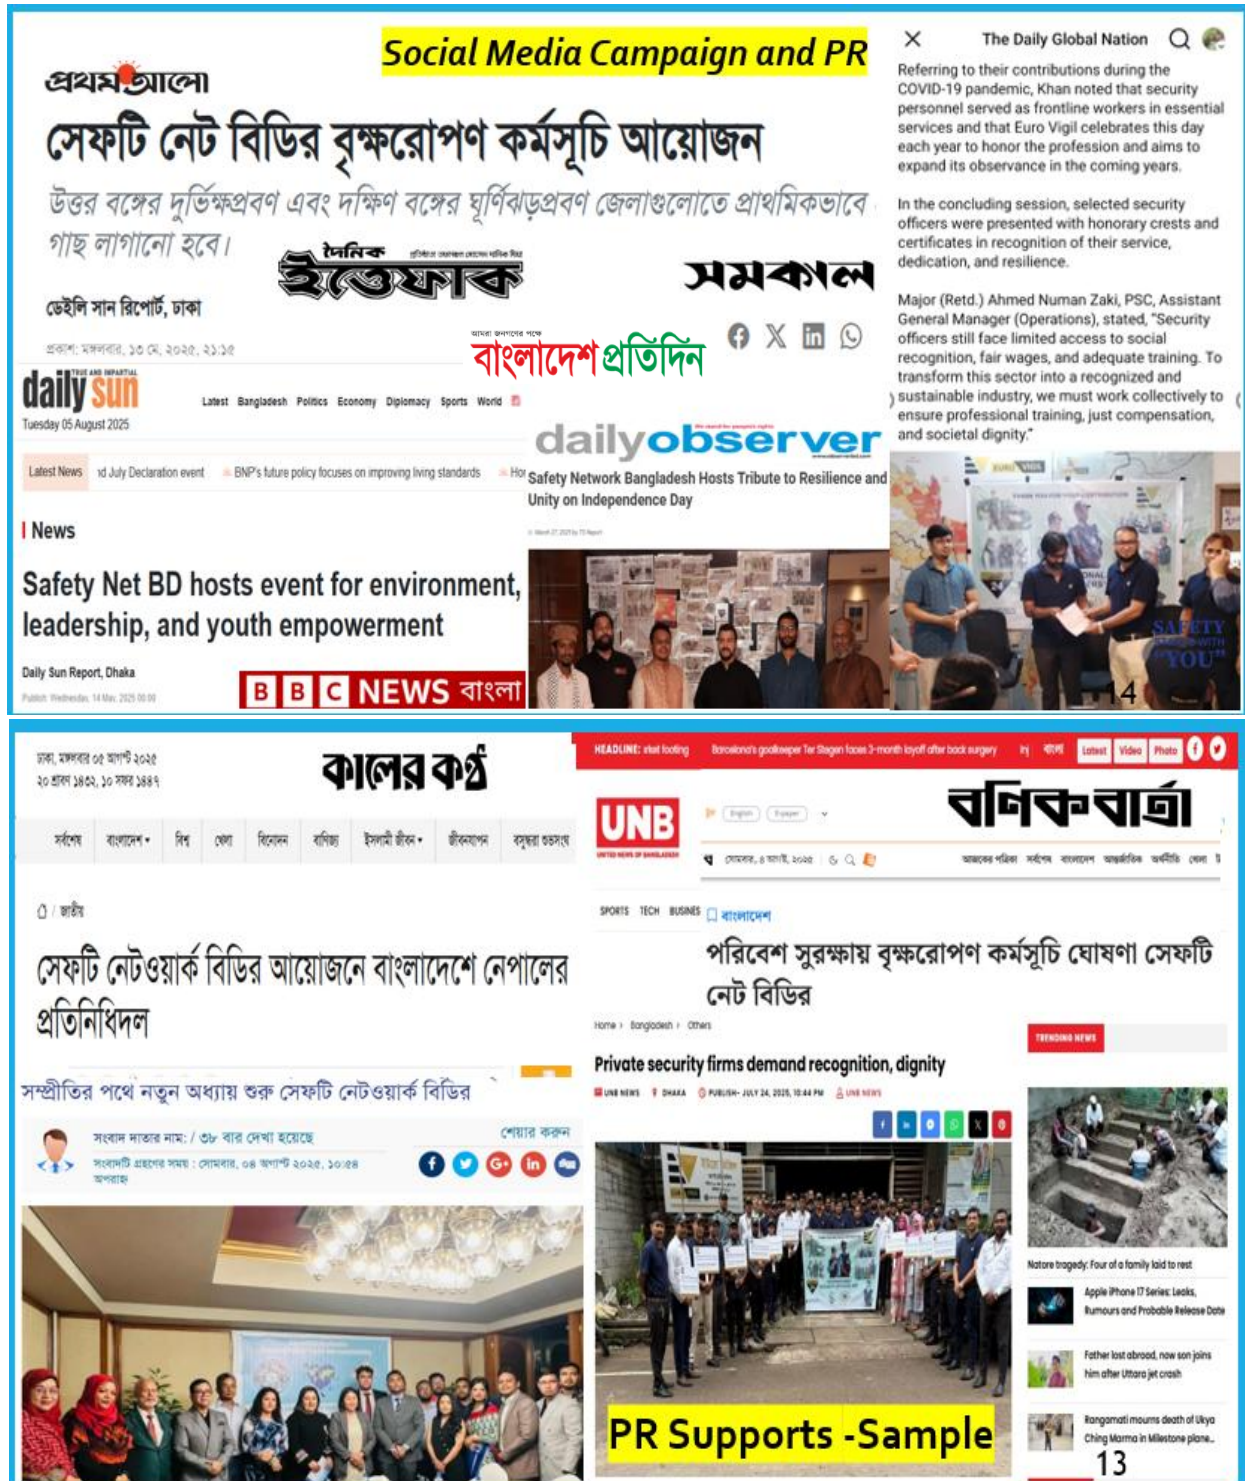

contributions from strategic partners. Every piece of data undergoes a rigorous, multi-stage validation process before dissemination or forwarding that to our community members or clients, guaranteeing both its accuracy and relevance to our clients' specific needs.

We conduct in-depth aerial risk assessments and physical vulnerability assessments, adhering strictly to **ISO 31000** (Risk Management guidelines) and **NEBOSH** (British Safety Council) assessment parameters. This approach informs our capabilities,

allowing us to proactively manage uncertainties and enhance operational efficiency for our clients. By integrating these internationally recognized standards, we ensure our risk management framework is both robust and globally aligned.

We provide expert-driven intelligence through our detailed weekly and monthly reports, which are meticulously prepared by a multidisciplinary team of geopolitical specialists, security analysts, and social scientists. This blend of expertise ensures our reports offer comprehensive insights, helping clients stay ahead of emerging threats.

Beyond conventional methods, when we partner with organizations for public relations and business branding, we guide their growth through strategic event exposures and creative thinking to build a distinctive and influential brand identity. Beyond our comprehensive safety and security solutions, our unique strength lies in our signature media assessment initiative. We have already established a significant presence by delivering a concise media monitoring report to over 800 professionals through the digital platform of BD Professionals, an extended arm that has been glorified as the nation's top forum for corporate and development professionals (www.bdprofessionals.org). This successful outreach positions us to expand our leadership in news intelligence. We prioritize the same high standards across all our operations, leveraging our vast field-level connections and professional platform to serve as our "eyes and ears" and provide intelligence across all our scopes of work.

In summary, our Media Monitoring & News Intelligence service is designed to be your strategic partner in an ever-evolving information landscape. By delivering easy-to-read, customized reports and alerts, we ensure you have uninterrupted, 24/7 access to critical insights on your brand, competitors, and industry trends even during public holidays or crises. Our blend of automated and manual tracking, paired with expert analysis, provides you with actionable intelligence from diverse media channels. We are committed to empowering your decision-making with reliable, timely, and relevant information, helping you stay ahead and maintain a competitive edge

Rest assured, all of our supports and endeavours are driven by subject matter experts and the country's leading professionals, ensuring our clients experience a service of unparalleled difference. Ultimately, our work is guided by a philanthropic commitment to societal transformation, a noble pursuit that extends beyond.

😊 ----- Thanks for supporting our mission. ----- 😊

Exclusive Value-Added Benefits for Strategic Partnership with Us

Whether through a formal prospectus or a simple collaboration, our core philosophy is rooted in a deep commitment to societal transformation. Our business ventures are uniquely structured so that a portion of the profit generated is reinvested directly into social causes. In this way, our work, regardless of its form, is intrinsically tied to a philanthropic mission that goes beyond traditional business metrics and provides a meaningful, positive impact on society. As part of our strategic partnership, your organization will receive the following complimentary benefits, designed to foster deeper collaboration and recognition within the professional community:

- **External Affiliations - Safety Network Bangladesh:** Top management personnel will be granted complimentary premium memberships with Safety Network Bangladesh, providing access to exclusive events, networking and branding opportunities, and the latest industry trends and insights.
- **BD Professional News Platform Subscription:** The designated point of contact from Your organization (preferably from mid-management) will receive a complimentary subscription to the daily newsletter produced by the BD Professional News platform, another vital arm of our initiatives working for the professional development centre inclusively for Bangladeshi citizen ensuring direct access to curated industry news and updates.
- **Safety Champions Award:** Your organization will be eligible for the honorary "Safety Champions Award", to be announced at the end of the year, in recognition of outstanding contributions to the mission of Safety Network Bangladesh, provided that the standard participation and engagement criteria are met throughout the year.
- **Ad-hoc Risk Assessment Support:** Our expert team will provide on-demand security risk assessment support tailored to your operational needs, including activities in high-risk, remote, aerial, or hostile environments. These services will be subject to prior coordination, logistical feasibility, and expert's availability, ensuring that is conducted with the highest standards of operational readiness.
- **Occupational Health Awareness Training:** Upon request, we will organize quarterly Occupational Health & Safety Awareness training programs for your organization, led by a renowned expert and practicing physician. These sessions will cover a range of critical topics such as fire safety, first aid and CPR, health and hygiene, preventable accident and hazard awareness, and preparedness for hostile or emergency situations, all aimed at building awareness and enhancing organizational capacity.
- **Greening Awareness Through Action:** Our trademark Safety Tree icons reflect our unique approach to promoting environmental and safety awareness. This innovative concept has been embraced by numerous organizations during Safety Day, Safety Week, and other awareness initiatives, including tree plantation campaigns. We would be delighted to support your premises and

surrounding areas by providing tree saplings, subject to logistical arrangements and space suitability.

- **Engage with Bangladesh's Premier Heritage Archive:** We proudly uphold the country's largest privately-owned museum and community library, located in Uttara Sector 6, Dhaka. Currently, we are working toward transforming this historic space into a fully functional digital archive and research centre. Partner organizations and associates are warmly invited to engage through educational visits, study tours, heritage support, and historical research. With its vast collection of rare and valuable artefacts, this archive stands as an unparalleled resource for learning and national heritage preservation.

We look forward to advancing our collaboration and establishing a fruitful partnership. For further information, we encourage you to visit our official websites, subscribe to our social media platforms, and reach out to us with any queries.

Control Risks

Date: 29th August 2024

To Whom It May Concern,

This is to appreciate and recommend Safety Net BD to organizations seeking to enhance its intelligence and operational safety.

At Control Risks, our mission for over 40 years has been to safeguard people, operations, and assets. To achieve this, we rely on partners who share our commitment to safety and operational excellence. Safety Net BD has been instrumental in supporting our efforts to maintain these high standards. In this connection, I remember of the expansive professional network of Safety Net BD across Bangladesh, facilitated through an open professional platform, that has significantly enhanced our information collection and analysis capabilities. The timely and accurate insights provided by Safety Net BD have allowed us to anticipate and mitigate potential risks effectively. As a member of their platform, I have experienced firsthand the dedication and professionalism of their team. Their work is invaluable to any organization looking to strengthen its safety and security measures.

Given our positive experience, we highly recommend Safety Net BD to any organization seeking to enhance its information analysis and intelligence capabilities.

Sincerely,
